A MARVELLOUS REMEDY
For a Marvellous Age!!

HOLLOWAY'S OINTMENT!

The Grand External Remedy.

By the aid of a microscope we see millions of little openings on the surface of our bodies through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. In case of the kidneys, Disorders of the Liver, affections of the Heart, inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes through bone or meat of any thickness — This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing, the most dangerous wound complaints, that cannot be reach'd in other means.

Erysipelas, Salt Rheum, and Scorbutic Humors.

No remedy has ever done so much for the cure of diseases of the Skin, whether form they may assume, as this Ointment. Not one of half the humors, Sore Head, Scrofula, or Erysipelas, can long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment curing advice as to its application, and has thus been the means of restoring countless numbers to health

Sore Legs, Sore Breasts, Wounds and Ulcers.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, despatched to the hospitals of the East large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistulas.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases

Bunions,	Piles	Fistulas	
Burns,	Rheumatism	Scalds	
Chapped Hands	Salt Rheum	Sore Throats of all kinds	
Chilblains	Scurvy	Sore Legs	
Corns	Sore Breasts	Wounds of all	
Lumbago	Skin Diseases	Yaws	
Mercurial Eruptions	Sore Heads	Ulcers	

Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62 cents, and $1 each

There is a considerable saving by taking the larger sizes.

N B Directions for the guidance of patients in every disorder are affixed to each Pot

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress, granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have served and have received 40 acres

Eighty acres to all who have so served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance is above made to his Widow, or if no Widow, to his Minor Children.

Service in the Revolution—or in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the drafted Militia of the State of Maine in the year 1839, or what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. Also the Militia called out by State Authority, and who served the above period and whose services have been paid for by the United States, and their Widows, and Minor Children.

The subscriber is prepared to receive and prosecute all claims arising under said Act, with promptness and despatch, and upon as reasonable terms as other Agents.

He has many Military Rolls and Copies in his possession, and especially very full ones of the Militia drafted for the Aroostook service in 1839.

As inducements to commit claims to his charge, he ventures to rely upon his long and well known experience and success in those of a similar nature

He will, if preferred, Purchase the Land Warrants at Liberal rates.

Application may be made to him at his Office, or if requested by letter, he will send to claimants Declaration, with suitable directions, which may be executed without the parties leaving their homes

To secure the receipt of a Warrant early, apply early.

BOUNTY LAND!

B. H. MACE,

Counsellor and Attorney at Law,

WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120; those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

Mr M. having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands

No charge unless successful, and the highest market prices PAID to those who wish to sell

More Bounty Lands.

BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war of the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 41 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 120 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. L. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston, who pay cash for warrants

N B—We have full and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

G. W. STONES
LIQUID CATHARTIC
—AND—
FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which human the most powerful, safe, and agreeable physic ever offered to the public

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over the various purgatives in the form of Pills or Powders must be obvious to every intelligent mind. It operates more instantaneously and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It positively produces all the effects before physic as required, but singularly removes habitual costiveness, leaving the bowels perfectly free. It expels all humors from the blood in a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Pain in the Head, Side, Stomach, &c

It daily establishes more upon its well deserved reputation, and is fast taking the place of all other Cathartics, Pills, &c., as a standard family medicine. No family will be without it after they have once tested its virtues. Remember, if you have tried other remedies, with no success, despair not—relief is now at hand. Are you suffering from Scrofula or any disease of my Liquid Cathartic will cure you. Would you be relieved from Indigestion, three bottles will effect it. If you do not, your local pains, you so often will trace you from them—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any one case, this is the most reliable, safe, and agreeable to take that has ever been placed within the reach of the public.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment,

and Humor Syrup,

IS the GREAT MEDICINAL ever offered to the public for the cure and relief from pain

It has stood the test of time to their entire satisfaction, and is offering it to the public we are not expressing our opinion. We know it to be the greatest ALLEVIATOR OF PAIN and SUFFERING to those afflicted with any kind of Humor and justly one of the greatest blessings to mankind ever before the public, as we will show by the evidence of living witnesses

Read the following—it speaks for itself

Bangor, June 1, 1855

We, the undersigned, citizens of the place, have used the Vegetable Allied Ointment prepared by Dr. L. H. Hayes of this city, and being personally acquainted with the fact, feel pleasure in adding our testimony to all the high claims of this medicine. Unlike other remedies in the market, this preparation will run its effect speedily and effectually. The Ointment we have used with the most happy result after years of seeking relief by the use of other remedies, we cheerfully recommending it to the afflicted and to those who have no confidence in quack nostrums

Our experience fully justifies us in thus recommending it to the afflicted

THE ELECTION.

We add to our list the returns from 70 towns, mostly in Penobscot, Somerset, Franklin and Piscataquis—giving Morrill 7638, Wells 6588, and Reed 1617. The aggregate of the whole 212 towns (errors excepted,) is for Morrill 35,930, Wells 30,118, Reed 7604. Although there is an actual increase of from 3000 to 4000 votes for Morrill, he yet loses *relatively* from his last year's vote some 6000.

From the returns received we judge that Mr Morrill will have about 48,000 votes in the State—a noble vote and a noble party. That vote is larger than ever before given to any candidate in this State. Judge Wells will have about the same vote as Mr Morrill—perhaps two or three thousand less—and Mr Reed 10,000 or 11,000.

The opposition "Liberal" party have undoubtedly elected from 18 to 22 Senators out of the 31. We don't feel like claiming any Republicans elected, except in Hancock, and perhaps Washington. There is no choice in this county, and probably none in Aroostook, and perhaps none in York. Piscataquis is doubtful, also Franklin and Washington. The opposition have chosen, probably, in Cumberland 4, Lincoln 4, Waldo 3, Kennebec 3, Oxford 3, Somerset 2

We shall give the list of Representatives when it is more complete. We have returns from 26 Republicans and 44 Opposition. In this County, 5 Republicans to 11 Opposition.—Asa Smith of Mattawamkeag is said to be beaten. There can be no doubt that the Democratic-Whig-Pierce and Nebraska-Liberal-Anti-Know-Nothing party has a majority in both branches of the Legislature, and will have a Governor to suit them—if either of their Candidates can suit such a coalition. It is well that they should have the Legislature, in both branches, by a strong majority, so that the Maine Law, which has constituted their whole stock in trade, may be *satisfactorily* arranged, provided they can do it. They must take the responsibility of it. We apprehend, however, that the twenty or thirty thousand ultra Liberals who make up the strength of the new party, will hardly be satisfied with what the prudent leaders may deem proper to give. Nothing less than a free traffic will suit the Liberals; and if they dont get that—why, look out for next year.

The Republicans are in good spirits—firm, united, and proud both of the *numerical* and *moral* strength of their party, and of the men who belong to it. Its elements are harmonious in principle, and strong in the confidence of redeeming the State next year from the disgrace which it will now suffer in the eyes of the free North.

Killed by a Child —A man was killed in Clark county, Ark., on the 19th ult., by a child about nine or ten years of age. The child's father was engaged in a fist fight with another man, when the child ran up and struck a knife in his father's adversary—killing him almost instantly

Ten Tons of Gold—The North British Mail says

"We have seen a letter from Melbourne, dated the 10th of May, per the George Marshall, to a respectable firm in town, wherein it is stated that a nugget was then prevalent in Melbourne, that a piece of solid gold weighing ten tons had been found in the Tarrangower diggins.

The Mackerel fishery for the Gloucester fleet, or the North-east, promises well the present season. About 200 sail are now absent from home. About a dozen have arrived from their first trip within the last fortnight bringing tolerably good fares—from 150 to 300 barrels. The mackerel, however, pack out small, the market prices are low, and sales dull just now.

Thanksgiving.—The Boston Traveller observes. We believe that a day of National Thanksgiving would be acceptable to nine-tenths of the community. Why cannot one be appointed? Surely not from any jealousy of State rights as we have heard suggested.

Balloon Ascension on Horseback —On Monday the 29th ult., Mr. Ellett, the well known aeronaut, made a balloon a session from St. Louis, upon horseback. His Pegasus it is said behaved himself in an admirable manner, and during the ascent looked down upon the earth in wonder and astonishment. The balloon descended safely near the mouth of the Missouri river, about fifteen miles from the city.

Parnabas Bates, the professed inebriate in Albany, who wanted the Justice to let him pay his fines by the year, told the court that twelve years since he was worth $20,000 and was surrounded by a happy family. In an evil hour he bought a lottery ticket; and now children, wife and farm are all gone. The wife is in her grave, the children are married and settled away from him, and his farm has been squandered for lottery tickets.

At the book sale in New York on Wednesday, the entire day was devoted to Harper's Catalogue, on which the sales amounted to about $7,000.

On Friday of last week, A. T. Stewart & Co. of New York, sold goods to the amount of $100,000.

The New York Mirror learns that Sophie Anna has made overtures for the purchase of Mr. Edwin Forrest's mansion near Yonkers, and that Mr. F. has named the price of the place at $100,000.

To the Editor of the Bangor Whig.

Disgraceful Occurrences at Cherryfield—More Mobs.

As you may have false reports of the disgraceful occurrence, which took place at Cherryfield on Saturday evening last, and which was the most disgraceful one that ever happened in this otherwise peaceable and orderly town; I will give you a correct account of the circumstances preceding and attending it. About ten days ago, Dr. Jordan of Bangor, delivered an address to the Wells and Wells party, in Union Hall, when, among other offensive things, the *minister* was charged with degrading their calling, and abusing their trusts by advocating the principles of the fusion party, so called, and then voting for Anson P. Morrill. He enlisted four clergymen of Bangor from this imputation, Professors Pond and Shepard, and Rev. Messrs. Maltby and Little.

On Monday evening last, your fellow citizen, Daniel Sanborn, addressed the same party in the same place, when a more sweeping denunciation of the like character, was hurled against the ministers of the State. These bitter invectives were not favorably received by any portion of the Republicans.

On Monday morning, at the suggestion of the writer of this account, the Hall was engaged for a meeting of the latter, on Saturday evening, at being supposed no strangers or speakers from abroad would want it at that time.

On Wednesday, one of the Wells party applied to the agent of the Hall to secure it for their use on Saturday evening. He was told by the agent that he believed it had been already engaged, but he would see. Without waiting for this enquiry, the Wells man caused notices to be posted up, on Wednesday, that "Daniel Sanborn, Esq., would give a address the citizens of Cherryfield, on Saturday evening, at the Hall." This led to a remonstrance of the Republicans, and almost in a determination not to yield their claim. The present writer urged conciliation and forbearance, and proposed to Mr. Sanborn's friends, that he should occupy part of the evening, and the remainder be taken up by any one disposed to answer him. This proposition was not accepted. The Republicans then thought of having a *separate* meeting, at the same time, in another place. This plan was warmly objected to on Mr Sanborn's account, so as not to draw from him any portion of the community who might desire to hear him; and thus to give him a *full house*. It was also understood that all should go, and patiently listen to him, as long as he wished to speak, even if his address lasted until eleven o'clock, and after he was done, and his party had no other business to do, the privilege should be claimed to hear some other speaker or speakers in answer to the premises he might take. No opposition was anticipated, because on Thursday evening, when the Hon. S. C. Foster spoke to the citizens, in the same Hall, at the request of the Republicans, and refuted some derogatory remarks relating to the character of the Governor, said to have been made by Mr. Sanborn, at a public meeting in Machias, the author, who was present, was three times offered the privilege of presenting any views, or of making any explanations, he chose, and Mr. Foster suspended his remarks to afford him his opportunity. He declined saying any more; than to deny that the assertions charged were made by *him*. On Friday, the following notice was posted up:—

☞ "HEAR BOTH SIDES".

"Those citizens of Cherryfield, who have the *courage* and wish to hear both sides of a matter, may do so, by attending the address of D. "Sanborn, Esq., to-morrow evening, when he "will, in addition to other remarks, reply to "Mr Foster's of last evening."

When Saturday evening came, the Hall was filled to overflowing, as expected and intended Mr Sanborn was treated with great attention and respect. He prolonged his address more than two hours and a half, and after closing, immediately, with the President left the Hall. James A. Milliken, Esq., was then called for, by the Republicans. It seems, on the evening previous, at Millbridge, Mr. Sanborn made some allusions to Mr. Milliken, of an unbecoming nature, and it was thought but fair to give the latter an opportunity to reply. He was therefore called upon to speak, and as he stepped towards the desk, he was clapped, as Mr Sanborn had been, but the lovers of *disorder* were determined, and declared he should not speak, and to prevent him they made an uproar and howling which were completely deafening, and which were heard a long distance outside the Hall. The stamping, clapping, and yelling continued for half an hour, during which a scene of tumultuous and riotous confusion was exhibited, entirely indescribable, creating terror and alarm, especially to the ladies, who filled nearly or quite half the seats in the Hall. The most insolent and threatening expressions were used by these rioters, and but for the great prudence and forbearance of the Republicans, blows and bloodshed would have ensued and lives must have been lost, as well as damage to the furniture of the building. The wonder is, that some fatal catastrophe did not take place. Nothing but the discretion I have mentioned, prevented. For some time the Republicans were resolved to stem the boisterous storm, until it subsided, and they had a chance to be heard. After waiting about an hour, in which there was little or no cessation of this disgraceful strife, they concluded it would be best to leave the disturbers in their dishonor, and retire from the Hall; and they did. The results of this night's proceedings will, undoubtedly, be a loss to *them*, and a gain to the law and order party, of a number of voters, for at least half a dozen, whose votes were doubtful or certain for the former, have declared they want no further evidence of what they ought to do, and they will vote for Morrill. Such an account, as I have now given you, could never have really gone from Cherryfield before, and I trust will never go again. You must make no allowance for high coloring—it is scarcely half as deep as the reality, as you will probably find from other sources. You may calculate to hear good tidings from this Representative District before to-morrow's sun.

AN EYE WITNESS.

P. S. There is one fact which I have omitted to mention, when the first attempt was made to prevent Mr. Milliken from speaking, A. Campbell, Esq., appealed to those who made it, and urged them to withdraw, if they did not wish to hear him. They declared they would not. There is no doubt the whole plan was concerted before the meeting, to prevent any one from speaking, but Mr. Sanborn. I shall not charge him with seconding this design, but his leaving the Hall so suddenly, after closing, with the Chairman, looks suspicious. Had they remained, they might, if so disposed, have quelled the disturbance.

Notwithstanding the reproaches cast on ministers, and the rod held over their backs, Rev. Mr. Holt preached, yesterday afternoon, a sunset, admirable, appropriate and Gospel sermon, on the duties of Christians, from the text of "whether ye eat or drink or whatsoever ye do—do all for the glory of God." He applied it directly to the doings of the day. It was listened to with deep attention; and while it offended none, drew tears from some eyes. For his moral fearlessness and faithfulness he has won golden opinions and praise from all.

The Bombardment of Sweaborg.

[Dated (Aug. 17) Correspondence of London Times]

The fortifications of Sweaborg extend over six islands, or rather rocks, called Lango, Lille Svarto, West Svarto, East Svarto, Vargo, and Gustafsvard; the last five are connected by bridges, and occupy a space of about 1,200 by 650 yards. Vargo is the capital, the strongest fortress, and also the central one. The works are of granite, and at massive as the foundations on which they stand, being, for the most part, constructions out of the solid rock. Sweaborg is said to mount 810 cannon, has casemates for from 6,000 to 7,000 small arms, and barracks for a garrison of 12,000 men. On the 7th of August, at 9.30 A. M., signal was made from the flag-ship, "Outward and leeward most ships weigh." The fleet, consisting of nine British line of battle ships, thirteen steam frigates and sloops, sixteen mortar vessels, and an equal number of gun-boats, sailed from Nargen, and, after a pleasant run of five hours, anchored at a distance of about 6,000 yards from the fortress of Sweaborg. In the course of the same evening the French fleet joined, and immediately commenced throwing up a mortar battery on the island of Lango, situate some 2,000 yards to the north of the cluster of five islands which form the principal part of the fortress of Sweaborg.

During the 8th both fleets were busily employed preparing for action; the mortar vessels were towed into positions, about 3,700 yards from the fortress, with 400 fathoms each of cable to "veer and haul on," as circumstances might require. This arrangement proved of the greatest advantage. The line-of battle ships remained in the same order they had at first anchored in. The steamers Magicienne, Vulcure and Euryalus took up a position in rear of the mortar vessels, for the purpose of being ready to give them and the gunboats any assistance they might require. The Lightning and Locust were ordered to hold themselves in readiness to tow out any gun or mortar vessels that might be injured, or otherwise rendered incapable of longer remaining under fire, in fact, every possible arrangement having been made, which prudence and foresight could suggest, the signal from the flagship at 7.15 on the morning of the 9th—"Gun and mortar vessels open fire with shell."

At 7 30 A. M. the first mortar was fired and taken up along the whole line, the gunboats running into within 3,000 yards, and getting their range. The enemy returned our fire very briskly with red hot shot and shell, but although their range was good, the damage inflicted was comparatively trifling, owing principally to the excellent handling of the gunboats and mortar vessels—the former being continually on the move, and the latter hauling or veering on their 400 fathom cable as soon as they found the Russian shot falling too close to be pleasant.

At 10 20 the first Russian magazine exploded, and a fire broke out in the arsenal; at noon a second magazine exploded, and at 12 15 a most terrific explosion took place, followed by a succession of minor ones. The force of this was so immense that a battery of guns *barbette* was literally blown to pieces by it. At 12h 40m, more magazines exploded. At this time the dockyards, arsenals, barracks, all the government buildings, storehouses, &c., were burning furiously.

The sight was most grandly imposing. The yards and decks of the line-of-battle ships were crowded with the excited "tars," who cheered vociferously after every explosion, as only British sailors know how to cheer. To add to this delightful din, the brass Cornwallis and Hastings and steam frigate Amphion, opened their broadsides at the same moment; and, as if to crown the whole, the Arrogant, Cossack, and Cruiser, chimed in with the bloody chorus, by commencing a heavy fire, with good effect, on a large body of troops which they chanced to espy on a small island to the eastward of the fortress. The cannonade continued, with little abatement, up to 8 o'clock P. M., when the gun boat recall was hoisted. Several of the mortar-vessels were also found to be injured from the quick and incessant firing, and had to be brought out to undergo repairs; these, however, which were not damaged, still kept up their fire, in conjunction with the French mortar battery, until 10 30 P M, at which hour the rocket boats from the fleet went in and kept up their part of the performance until daylight. The scene during the night was grand, beyond description; the whole of Sweaborg appeared one mass of flame, the rockets and shells adding not a little to the awful splendor of the fiery landscape.

At 6 30 A. M., on the 10th, the fire again opened from our whole line, and continued throughout the day, at the end of which little appeared left to be done.

[Extract of a letter from a British naval officer:]

The practice made by the mortar vessels and gun-boats astonished us all by its excellence. From the English mortar boats alone 3,200 shells were thrown in 45 hours, and at least 500 13 inch shells must have fallen in the place from the English and French mortar boats in the first hour. The summary of the business is this:—3,100 men destroyed a dockyard in 45 hours, defended by one of the strongest fortresses in Europe, mounting 1,000 guns.

The gunboats took a great deal of the fire from the mortar-vessels; and it was a most beautiful sight to see the former manœuvring—they literally dodged the shot. The mortar vessels were moored stern and stern, and continually altered their position, to destroy the range of the enemy; and the gunboats kept steaming round in five different circles.

RACHEL'S SUCCESS.—In spite of the wordy nonsense, the grand eloquence of the New York paid critics, Rachel's success is but moderate, as far as large audiences are evidence of the fact. The Times says the first audience was a good but not a full one. The second was only a moderate attendance. It says her failure would be a lasting reproach on the taste and refinement of New York, but it intimates that the public will not pay the high prices asked for admission. However brilliant Rachel's genius may be, we, for one, do not desire to see her canonized by an American public if all the reports about her are true. Genius and womanly virtue tested are worthy of all reasonable homage; but the former without the latter should never be rewarded by profitable success.

Seventeen Days Later from California.

New York, Sept. 8. The Northern Light has arrived. She brings over $1,000,000 in specie.

Trade at San Francisco was dull, and most articles had declined in price

The miners continued to do well.

The wheat crop would yield about two million bushels.

An Indian war was raging in Northern California and Southern Oregon.

Seventy-five Americans, had been murdered on the Klamath. Thirteen Indians had been caught and hung.

The Indians had also attacked the miners on the Upper Sacramento. Seven Americans were wounded and five Indians killed.

At Ranchon a party of Mexican robbers attacked the settlers, killing eight men, and one woman, including a Mr. French, robbing the latter of $7000. The woman's name was Diamond. The robbers were pursued by a party under Sheriff Phœnix. A fight ensued in which the Sheriff and three of the robbers were killed. Five of the outlaws were afterwards hung by lynch law.

At Ringold, El Dorado county, Jeremiah V. Crane shot a Miss Newman, who had refused to marry him. She is still living, but in a critical state

Two smart shocks of earthquake were felt at Santa Barbara on the first of August.

A nugget worth $3300 had been found in Mariposa county.

Q. C. Woods, late partner of Adams & Co., absconded in the ship Audubon, for Australia. It appears that he and his friends retained over one hundred thousand dollars of the assets of the concern.

A Turk and Frenchman had been detected counterfeiting gold dust. They say they were employed by a banking express company.

The Know Nothing State Convention had nominated O Neely Johnson for Governor, E M Anderson for Lieut. Governor; Hugh D. Murry and D S. Terry for Justices of the Supreme Court, George W. Whitman for State Comptroller, H Bates or Treasurer, John W Brewster Attorney General, and James Allen State Printer.

The U. S. sloop-of war Decatur arrived at San Francisco from Puget Sound

A fire had occurred in Stockton, destroying property to the amount of $30,000

All the British and French men of war had left San Francisco, some for Europe and others on a cruise

In the vault of a building on the corner of Montgomery and California streets formerly occupied by Adams & Co., an apparatus for the manufacture of bogus gold dust has been found, including acid and other chemicals, and an iron roll used for the purpose of giving to the particles of base metals the peculiar shape of flake gold. This mill had the remains of the last grist in it.

FROM THE ISTHMUS.

War still continues to rage in the interior. A battle was fought on the 18th near Leon, between the government troops, under Guardiola, and the Democratic army under Munos. The latter was defeated and killed in battle

Col Walker arrived at San Juan Del Sud on the 29th, with a small detachment under his command. As was endeavoring to recruit from the California passengers, but met with little success.

Col Kinney was still at San Juan Del Norte. He had concluded his contract for the Shepherd grant of thirty five gallons acres of land, and had sent an agent to Grenada to get the grant confirmed by government.

The weather has been exceedingly dry and warm for the last week or ten days, and we perceive that fires are beginning to show themselves quite extensively in the new clearings. We do not hear of their running much in the woods as yet. The weather is favorable for perfecting the fall crops; and there has been no frost recently.

CONVICTION FOR MURDER.—Charles Cripps was convicted at Bath, last week, of murder in the second degree, and sentenced to the State Prison for life. The murder was committed at Topsham, on the 1st of November last.

Propeller Gen Knox, was sold at Houlton 4th inst, by auction, for $16,300. Capt. J. A. Creighton was the purchaser.

An Anti Rent Convention is to be held in Albany on the 18th inst.

Austrian papers make complaint that the assistance lent by the Western powers to the Sultan is fast changing into the occupation of Turkey.

The Times Paris correspondence writes, after a comparatively long period of silence, respecting Austria and Austrian policy, that it is again stated in high quarters that the French Government has reason to be satisfied with that power.

In reply to Austrian remonstrances, Russia is said to have stated, that questions of nationalities will not be introduced into the present crisis, and a depot of Italian recruits now at Novara will be removed farther from the Austrian frontier.

A letter from Berlin says that Count Nesselrode has addressed another letter to the Russian Embassy, in which he says that the Czar is willing to make honorable terms of peace.

A Constantinople letter of the 20th, says, a council was held on the 18th, at which ministerial changes were decided.

Many of the wounded arrived at hospitals.

Lord Stratford has gone to the Crimea!

The Duke of Newcastle has been sick in camp, but is recovering.

The Nord Russian Journal says that Omar Pasha freely expressed himself at Constantinople, that the allied Commanders, especially Pelissier, are humbugs, and he should twice have lost his army if he had followed their advice.

Betts, the engineer, writes, that the Balaklava railway is in good condition to stand the winter.

Abdel Kadir has arrived at Constantinople.

Britain.—No news. The House steamer embarked five hundred Highlanders from Liverpool for Malta.

Great Britain is embarking cavalry.

The export of iron north of Dunkirk is prohibited, and bonds are required wherever exported.

The national shilling subscription is proposed for a testimonial to Admiral Charles Napier.

A list of bankruptcy has been issued against Edward Oliver.

The potato harvest is favorable on the whole.

France.

Political dullness prevails. The Austrian Arch duke Maximilian has arrived at Toulon.

The kings of Sardinia, Bavaria and Wurtemburg, are expected to visit the Emperor.

The crops throughout France are satisfactory.

The harvest of Algeria is excellent.

Belgium.

A commission has been appointed to revise the Customs Tariff.

Spain.

The tariff Commission has appointed Committees. Engineers are exempted from the forced loan, but invited to contribute.

A Paris rumor says, we may expect from day to day to hear of the involuntary abdication of Queen Isabella, and important events in Spain.

Duke Montpensier is openly agitating Italy.

The exportation of breadstuffs are prohibited the Roman States.

In Naples, the political ferment continues, and many arrests have been made.

Austria.

There is a rumor of a new loan of two hundred millions florins, of which Vienna bank advances. An Austrian or Lloyd's undertaken to open steam communication between Trieste, and the North African ports.

Spain and Portugal.

Austrian Engineers officially report favorably of a proposed ship canal from the Danube to the Black Sea.

Greece.

The currant crops of Cephaloh a are very deficient. Prices opened at one hundred and fifteen dollars.

Athens, 24th.—The ministerial crisis is unchanged.

Denmark.

The king of Denmark is visiting the king of Sweden.

The question of sound dues continues to perplex India and China.

Bombay dates of July 30th, say intelligence from India is important. A formidable insurrection has broken out in the centre of Bengal, and the insurgents are the Santals and other tribes occupying Bagmahal Hills, a bold and hardy race. The insurgents number from thirty to fifty thousand, acting in two parties, and are armed with axes, poisoned arrows and a few fire arms. They have spread over the country for a hundred miles in extent, destroying everything European, and pretend that they are led by their God in person. The few Europeans have entrenched themselves until assistance shall arrive. The insurgents lose so little in anticipated, that there was not a thousand troops within a hundred and fifty miles. London papers have soothing editorials on the subject.

Intelligence confirms the recent collusion of the Russians with the Khan of Khiva and the repulse of the latter.

Persia quiet.

Shanghae advices to the 29th June represent all quiet, and at Canton rather quiet with food comparatively plentiful; communication with the interior partially reopened. There has been an enormous butchery perpetrated at Canton; ten thousand persons have been executed or having sympathized with the rebels. They were beheaded at the rate of five or six hundred every day for a month. The insurgents are losing ground in the north.

SECOND DESPATCH.

Arrival of the Arago.

The Arago arrived at New York on the 11th, about half past three, bringing 240 passengers, amongst them Abbott Lawrence Jr. of Boston.

The papers added but little news not contained in the telegraphy per Africa.

Queen Victoria returned to England on the 29th.

Foiland telegraphs under date of Aug. 24th, that on the previous night the French carried a Russian embrasure on the glacis of the Malakoff. Subsequently 500 Russians tried to retake it, but were repulsed with the loss of 300 men.

Napoleon, in a letter to Pelissier seeking the army for their Tchernaya victory, looks to a speedy termination of the siege, and says, if Sebastopol does not fall, he knows by information that the Russian army cannot again sustain the struggle in the Crimea through the winter.

No. 54 Main-st., Bangor.

MISS S. NEWHALL having disposed of her stock of *Fancy Dry Goods* at a *very low price, on account of ill health*, said stock is now offered for sale, and must be sold by the 20th of September next, at a *very great discount from the original cost prices*.

We do not consider it necessary to enumerate the articles in this *large* and *carefully selected* stock, or the prices as these particulars are too well known to the public generally, and Miss Newhall's former customers in particular. The Stock is in first rate order, and ladies have only to call and see for themselves, to be assured that we shall sell according to the advertisement, as regards the very low prices.

☞This Stock will be offered for THIRTY DAYS ONLY, it will be remembered, at No 54 Main street, Bangor.

IMPORTANT DISCOVERY!

A Great Mystery Explained.

In the course of the last year, one of the proprietors of this valuable remedy was induced to visit a town in Nova Scotia, where he remained for several months with a near relative who was afflicted with a disease that baffled the skill of the most eminent physicians in that country. The disease was pronounced incurable, and the patient was given over by his friends to die. In this extremity, the proprietor of the Radway Ready Relief was induced to administer it, and the result was that the patient recovered, and in a few days was able to walk about the house. The physicians pronounced it a perfect case of a miracle.

The above was communicated to Dr. Kennedy by the whole family, under the name of

RADWAY'S READY RELIEF

It has been used by millions of thousands the wildest the Universe with the most unparalleled success. It is a perfect antidote to pain, whether of the head, face, nerves, bowels, back, limbs, or joints. One application relieves. It is a new discovery, instantly and infallibly stops the most excruciating pain, allays inflammation, whether of the kidneys, bowels, or other internal organs, and cures the most violent and agonizing pains, and restores the weak, infirm, and prostrated organs to strength and vigor.

A person has only to read RADWAY'S READY RELIEF without delay to be convinced of its truth. Give it a trial. Effect instantaneous after its use.

Let those who are afflicted with any severe pain give it a trial, and a few minutes there was no pain more and complete.

RADWAY'S READY RELIEF

was the first and only remedy that ever relieved the most excruciating pains in a few minutes, and was the only remedy that ever relieved the most excruciating pains in a few minutes, and was the only remedy that ever relieved the most excruciating pains in a few minutes.

Those having TERRIBLE TICKETS in the lottery of life should not neglect to call at the office of the Radway Ready Relief, and get a ticket. For further information, inquire of the Agents at Bangor.

DOCTOR HOOFLAND'S

CELEBRATED

GERMAN BITTERS,

PREPARED BY

Dr. C. M. JACKSON, Philadelphia, Pa.

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys, and all diseases arising from a Disordered Liver or Stomach.

Such as

Sick Headache, Loss of Appetite, Nausea, Dizziness, Coldness of the Extremities, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying Posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat, Burning in the Flesh, Constant Imagining of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to this preparation, does so with a full knowledge of the utmost confidence which it merits and receives from the thousands who have used it, and the hundreds of certificates which have been received by him from all parts of the United States, and from all classes of society, testifying to its virtues and value. In many parts of the country, it is considered as a standard remedy, and in the city of Philadelphia, where the proprietor resides, it is universally prescribed by the most eminent physicians in their practice. In fact, it has attained a degree of celebrity unequalled by any other medicine of the kind ever known in this country, and has received the unqualified approbation of all who have used it.

The proprietor has in his possession hundreds of certificates of the most astonishing cures performed by this remedy, a few of which he has published in pamphlet form, which he will furnish gratis to all who call for them. Among the certificates will be found those of Governors, Senators, Members of Congress, Judges, Clergymen, Merchants, Editors, and Lawyers, all of which he is willing to refer to for the truth of the statements made in favor of the Bitters.
